***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 21 February 2006 has been entered.

**Reasons for Allowance**

The primary reason for the allowance of claims 4 and 5 is the inclusion of the limitations of a method of communicating with a plurality of print recording material reservoirs equipped with memory devices, wherein terminals of the memory devices are always connected to terminals of the printer when the print recording material reservoirs are mounted on the printer, including the step of determining whether communication is possible with each of the memory devices via signal lines when the plurality of print recording material reservoirs have been moved to a position in which the print recording material reservoirs cannot be removed.

It is these limitations found in the claims, as they are claimed in the combination of, which have not been found, taught or suggested by the prior art of record which makes these claims allowable over the prior art.
